## ***The castle has been Conqueror'd!***

Okay, the grammarians are shaking their heads at this headline, but I couldn't think of a better way to say that the Conquerors have begun having our meetings at a new location!

For those of you who missed it, we're now meeting at the UCF Building downtown at **36 West Pine Street** (just a few blocks away from our prior location). **Attached to this e-mail is a pdf file containing driving and parking instructions.** Dining will begin at 6:30pm and the gavel will drop sharply at 7:00pm. Our meeting room is on the second floor. Be sure to make your meal selection via Food Master **Sheldon Kagel** [sheldonkagel@yahoo.com](mailto:sheldonkagel@yahoo.com)

## ***Great start Monday at new location!***

18 members and guests attended our first meeting in our new digs at the UCF Building!

A full slate of four speakers entertained and enlightened us with some interesting topics. **Jimmy Moore** gave us compelling reasons why we shouldn't use credit cards. President **Brad Satill** showed us you don't have to check your speech manual at the door when you serve in a club office as he gave us alternate ways to deal with bad situations. **Karl Richter, DTM** encouraged each of us to use our gifts and become a "Light" for others. And **Sheldon Kagel** won the *Most Improved* ribbon by sharing with us the most effective ways to position our businesses on the Internet.

After the meeting, ten Conquerors walked half a block to our new watering hole, **Tanqueray's Martini Bar**, to celebrate *The Last Word!* The bar, at the corner of Pine and Orange, offers much more affordable martinis, beer, and wine than The Grand Bohemian where we have been gathering the past two years. The bar manager has agreed to reserve one of their side rooms for the Conquerors to gather after our meetings. This new venue offers a great opportunity to get better acquainted with your fellow members. See you there! Cheers!

### **Top ten worst excuses for ignoring the red light and talking too long:**

- *I couldn't remember how my speech ended and I was hoping it would come to me if I kept jabbering.*
- *I'm trying to get through the manual faster by doing two assignments at a time.*
- *My notes were in reverse order. The longer I spoke, the further from my conclusion I got.*
- *I guess I didn't allow for the sustained cacophony of ringing glasses.*
- *The previous speaker left her notes up at the lectern and I guess I must have given her speech too. I thought it sounded familiar!*
- *I wrote this speech during dinner and didn't have time to develop a conclusion.*
- *I wasted a lot of time pausing for laughter.*
- *I don't stop for red lights when I drive. Why should I when I speak?*
- *I saw people looking at their watches...I thought they wanted more!*
- *My mentor left in the middle of my speech. I stalled for her to return because I wanted her to hear my brilliant conclusion!*
